Hohenstein now offers wastewater testing

Hohenstein now uses its expertise as a ZDHC partner laboratory to offer wastewater testing

BÖNNIGHEIM (Germany) (aba) Following its recent recognition by the Zero Discharge of Hazardous Chemicals (ZDHC) Program as a partnering wastewater testing laboratory, internationally accredited testing laboratory, service provider and research partner of the textile industry, Hohenstein is thrilled to further support the objectives of the ZDHC and the ZDHC Roadmap.

Like Hohenstein and the OEKO-TEX® Association, the ZDHC has the goal of significantly reducing or completely banning the use of harmful chemicals in the production process of textiles, leather and shoes. By testing wastewater values, Hohenstein supports the industry on the path to reduced emissions.

Hohenstein has been a member of the ZDHC and its laboratory working group since December 2018. Chemicals can be tested for ZDHC MRSL (Manufactured Restricted Substances List) con-formity using ECO PASSPORT by OEKO-TEX®.

As a test and research laboratory, Hohenstein already has many years of experience of handling
